Sobi publishes Annual and sustainability report for 2024

Swedish Orphan Biovitrum AB (publ) (Sobi®) published its Annual and sustainability report today. The report details the progress Sobi has made in 2024 and how Sobi strives to identify and unlock potential breakthrough innovations that transform the lives of people with rare diseases.

Sobi has a strong focus on building a sustainable business and ensuring that everyone eligible within its therapeutic areas has access to approved medicines.

The report includes the audited Annual report and the Sustainability report, which is Sobi's statutory sustainability report in accordance with the Swedish Annual Accounts Act and based on GRI Standards 2021, inspired by the European Sustainability Reporting Standards (ESRS). The report includes Sobi's Task Force on Climate-related Financial Disclosures (TCFD) report and its EU Taxonomy disclosures.
Sobi is transitioning to fulfil the Corporate Sustainability Reporting Directive (CSRD) and its European Sustainability Reporting Standards (ESRS). The aim has been to implement selected parts of the fundamental standard structure in 2024.
The report disposition has, therefore, been modified towards the new requirements, and ESRS inspires the report content.

Sobi's 2024 Annual and Sustainability Report is available on sobi.com. The Swedish Annual Report is also available in European Single Electronic Format (ESEF). The Swedish ESEF version prevails in case of any queries or conflicts.

Sobi
