Equity Derivatives: New Version of the Market Model & Functionality Document

A new version 3.3.0 of the Market Model & Functionality document for equity derivatives, with an effective date of 14 September 2026, is now available on the [Nasdaq Derivatives Markets Rules](#) webpage.

The new version includes the following key updates:

- Section 2.2.1 on the availability and types of standard instruments has been updated to reflect the introduction of OMXS30 Daily Options.
- Section 8.1.2 on the availability of user-defined strategies for combination orders has been updated to reflect support for inter-product strategies between regular OMXS30 Options and OMXS30 Daily Options.
- Section 8.3.2 on combination order matching has been updated to revise the conditions for synthetic matching eligibility.

For further information regarding this exchange notice, please contact European Market Operations, telephone: +46 8 405 7700 or EMO@nasdaq.com.
