- Ratings: Standard & Poor's Credit Market Services Europe Limited ("**S&P**"): BBB+
- S&P is established in the EEA and registered under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**").

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for any fees payable to the Dealers, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer. The Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

4. REASONS FOR THE OFFER

The Notes are intended to be issued as Green Bonds.

Use of Proceeds

The proceeds of each Green Bond will be used exclusively for the financing or

the re-financing of existing Eligible Projects. "**Eligible Projects**" means a selected pool of projects funded, in whole or in part, by the Issuer that promote the transition to a low-carbon and climate resilient growth and a sustainable economy as determined by the Issuer.

Eligible Projects:

- Renewable energy including wind, hydro¹, biogas, solar and geothermal power and related infrastructure.
- Pollution prevention and control, including waste-to-energy².
- Energy efficiency including construction and reconstruction of electricity distribution networks to decrease network losses and/or provide possibilities to connect renewable energy, smart grid projects and ESCO projects.
- Clean transportation solutions for maintenance vehicles based on non-fossil fuel and supporting infrastructure.

The proceeds of each Green Bonds will not be used to finance nuclear or fossil energy generation projects. Green Bonds can be used to finance the acquisition and development of new projects and to refinance existing Eligible Projects. The division of the allocation of Green Bond proceeds between new projects and refinancing will be included in the annual Green Bond Investor Letter.

Project Evaluation and Selection

All investment projects are approved by

¹ Hydro power is defined as a) new investments, refurbishment and maintenance of small scale hydro power plants (up to 10 megawatts (MW) of generating capacity) and b) refurbishment and maintenance of large scale hydro without any increase in the size of its impoundment.

² Waste-to-energy is defined as local municipal waste (which cannot be recycled or reused, harmless industrial waste and sludge accumulating in the water treatment plant (which cannot be used as fertilizer) and/or forest biomass from areas that have, or meet the requirements for, FSC or PEFC certification and that comply with the EU FLEGT Regulation, if applicable.

the Board of Directors of the Issuer. Approved projects will be evaluated by the Issuer's Green Bond Committee and selected for financing from the Green Bond proceeds if they meet the criteria for Eligible Projects as specified under "*Use of Proceeds*" above and there is a high likelihood that the net, long-term environmental effects are positive. The Green Bond Committee consists of representatives from the following functions: environmental, energy efficiency (technology), energy distribution, corporate social responsibility and finance. The members of the Green Bond Committee will be approved by the Board of Directors. The Green Bond Committee will select Eligible Projects in consensus, i.e. all participating departments have a veto.

Management of Proceeds

An amount equal to the net proceeds of the issue of the Green Bonds will be credited to a special account that will support the Issuer's funding of Eligible Projects. As long as the Green Bonds are outstanding and the special account has a positive balance, at the end of every fiscal quarter, funds will be deducted from the special account and added to the Issuer's Green Project Portfolio in an amount equal to all disbursements made during such quarter in respect of financing and/or refinancing of Eligible Projects. Until disbursement to Eligible Projects, the special account balance will be placed in liquidity reserves and managed accordingly. If, for any reason, a financed Eligible Project no longer meets the eligibility criteria, it will be removed from the Green Project Portfolio.

Reporting

To enable investors to follow the development and provide insight to

prioritized areas, the Issuer will provide an annual Green Bond Investor Letter to investors including:

- a) a list of the projects financed, including a brief description and expected impact;
- b) information about the division of the allocation of Green Bond proceeds between new projects and refinancing;
- c) a summary of the Issuer's Green Bond development.

The Issuer recognises the importance of transparency and will include expected and actual impact reporting on financed projects in the Green Bond Investor Letter when feasible. The internal tracking method, the allocation of funds from the Green Bond proceeds and the annual Green Bond Investor Letter will be verified by the Issuer's external auditor. The Green Bond Investor Letter and the opinion of the external auditor will be made publically available on the Issuer's website.

Considerations for investors seeking exposure to green assets

Neither the Issuer nor the Dealers make any representation as to the suitability of the Green Bonds to fulfil environmental and sustainability criteria required by prospective investors. Each potential purchaser of Green Bonds should determine for itself the relevance of the information contained or referred to in the Base Prospectus and these Final Terms regarding the use of proceeds and its purchase of Notes should be based upon such investigation as it deems necessary.

The Issuer has agreed and committed itself to certain management of proceeds and reporting obligations. However, it will not be an event of default under the terms and conditions of any Green Bonds if it fails to comply

with such obligations. Each potential purchaser of the Notes should be aware that Eligible Projects may not deliver the sustainability benefits anticipated.

Green Bond Framework

The Issuer has, in connection with issues of Green Bonds under the Programme, established a Green Bond framework (the "**Green Bond Framework**"). The Green Bond Framework, amongst other things, sets out how Eligible Projects are evaluated and selected and how the Issuer will manage, and report on, the proceeds of its Green Bonds.

Pursuant to the recommendation in the ICMA Green Bond Principles that issuers use external review to confirm their alignment with the key features of the ICMA Green Bond Principles, the Issuer has engaged the Centre for International Climatic and Environmental Research ("**CICERO**") to issue an independent report regarding the Green Bonds' compliance with certain environmental and sustainability criteria.

Copies of the Green Bond Framework, CICERO's Second Opinion Report and any reports prepared by the Issuer or the relevant external auditor (as described in the preceding sentence) may be obtained by investors from the website of the Issuer, at www.le.lt. None of these documents is incorporated into, or forms part of, either these Final Terms or the Base Prospectus.
