

FlexQube receives follow-up order worth approximately USD 1.1 million in the United States

FlexQube has received a follow-up order worth approximately USD 1.1 million from one of the world's largest e-commerce and logistics companies, headquartered in the United States. The order is related to the existing project announced on March 19, 2026. The order includes additional components for FlexQube's AMR platform and tugger train solutions.

About FlexQube

FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1300 customers in 40 countries with primary markets being North America and Europe.

FlexQube's customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
