PAYDAY™ 3 update – 'Operation Medic Bag' increases in pace

Over the coming months, Starbreeze intends to increase the pace of both content and feature updates to PAYDAY™ 3. Since January, five updates have been released under the 'Operation Medic Bag' initiative, including the successful launch of the 'Boys in Blue' DLC as well as the first version of Solo mode. Two more major DLCs, along with a series of updates such as VOIP, server browser and CrimeNet, are scheduled for release in the coming months.

'Operation Medic Bag' is a focused effort that aims to continuously roll out requested functionality, enhancements, new technology and content to PAYDAY™ 3 with the aim of realizing both Starbreeze' and the player community's vision for the game. During the summer, activity will increase further, with more content and functionality updates.

"The PAYDAY team has worked tirelessly over the past few months to realize both our and the players' vision for PAYDAY 3. The updates during the spring have laid a solid foundation to accelerate our roadmap. Most recently, we launched our second major DLC, as well as

a large amount of free content for all players, including a long-awaited single player mode. We are already seeing an improvement in both activity and sentiment among our players, which is very positive.", says Mats Juhl, acting CEO, Starbreeze.

"In the coming months, we will continue to be active with two more DLCs and more updates within 'Operation Medic Bag', up until the one-year anniversary of PAYDAY 3's launch in September," continues Mats Juhl.

Planned DLCs until September 2024 are “Land of the Free” and “Fear and Greed”. Within the 'Operation Medic Bag' initiative, updates are expected for matchmaking, CrimeNet, improvements for Solo mode, new user interface and more.
