Ninja Kiwi brings Bloons TD 6+ to Apple Vision Pro on February 2

Modern Times Group MTG AB (publ) ("MTG") is excited to announce that its wholly owned game studio Ninja Kiwi is launching its global Tower Defense hit Bloons TD 6+ on Apple Vision Pro on February 2. Apple Vision Pro seamlessly blends digital content with the physical world and unlocks powerful spatial experiences.

Bloons TD 6+ is currently available on Apple Arcade for iPhone and iPad, with no ads or in-app purchases. The game on Apple Vision Pro will cover all the content available today to Apple Arcade players, including the new hero Corvus, which launched in December 2023. This means that Vision Pro users can access a version of the game that includes 40 major content drops and dozens of hours of both single player and co-op gameplay for up to four players.

For the visionOS version of Bloons TD 6+, the team at Ninja Kiwi concentrated on bringing players a smooth and innovative gameplay experience on the Vision Pro. Monkey Towers come to life in a fully spatial 3D interface. Players will see Monkeys animate within the visionOS user interface. The game will also let you pick up Monkeys and place them right into the map, using your eyes to select all interactions.

Scott Walker, CEO and Co-partner at Ninja Kiwi comments:

"Being part of the Apple Vision Pro launch has been a fantastic creative and technical opportunity for our team. We've been blown away by the capabilities and potential that are offered by the true stereoscopic gameplay on the Vision Pro. This in turn has left us with dozens of new ideas for what we can do with spatial display both in Bloons TD 6+ and in future games."

Bloons TD 6+ will be available for download for Apple Vision Pro with an Apple Arcade subscription. And with Family Sharing, up to six people in the household can enjoy Apple Arcade at no additional cost.

About Ninja Kiwi

Ninja Kiwi is a developer and publisher of mobile and multi-platform games in Auckland, New Zealand, and Dundee, Scotland, with over 80 employees. Ninja Kiwi developed and launched one of the first successful tower defense games, Bloons TD, in 2007. Since then, the Bloons universe has become a huge success. Ninja Kiwi's portfolio now includes multiple titles for mobile, console and PC, such as Bloons TD6, Bloons TD Battles 2, Bloons TD5 and SAS Zombie Assault 4. Ninja Kiwi is part of MTG, an international gaming group listed on Nasdaq Stockholm.

About MTG

MTG (Modern Times Group MTG AB (publ)) (www.mtg.com) is an international gaming group that owns and operates gaming studios with popular global IPs across a wide range of casual and mid-core genres. The group is focused on accelerating portfolio company growth and supporting founders and entrepreneurs. MTG is an active driver of gaming industry consolidation and a strategic acquirer of gaming companies around the world. You can find our HQ in Sweden, but we have an international culture and a global footprint. Our shares are listed on Nasdaq Stockholm under the tickers MTGA and MTGB.
