## Upward adjustment of expectations for 2019

Ringkjøbing Landbobank is upwardly adjusting its expectations for 2019. The expectations for core earnings are upwardly adjusted from the DKK 950 - 1,150 million range to the DKK 1,125 - 1,225 million range and the expectations for profit before tax are upwardly adjusted from the DKK 900 - 1,200 million range to the DKK 1,125 - 1,275 million range.

The background to the upward adjustment is that the high level of activity and the increase in customer numbers in the first half of 2019 continued in the third quarter. This has a positive effect on the expected earnings for the full year 2019.

The quarterly report for the 1st-3rd quarters of 2019 will be published Wednesday, 23 October 2019 as previously announced.

Yours sincerely
