

Company announcement 26/2021

Green Hydrogen Systems – Advanced start date of new CFO Ole Vesterbæk

Kolding, Denmark, 9 December 2021 – Green Hydrogen Systems announces that the new Chief Financial Officer Ole Vesterbæk will assume his position on 1 February 2022 instead of the earlier announced “no later than 1 May 2022” (reference to company announcement 23/2021).

Ole Vesterbæk joins Green Hydrogen Systems with an impeccable track record from leading finance organisations, today being the CFO in the largest division of Danish Crown, Danish Crown Pork. Prior to that Ole Vesterbæk has held senior positions in Ecco, Lantmännen and Velux and has an extensive experience in designing, building and running efficient finance organisations in a production and manufacturing environment. Ole’s leadership profile has been formed by successfully running culturally diverse organisations across Europe, the US and Asia.

Green Hydrogen Systems in brief

Green Hydrogen Systems is a clean technology company and a leading provider of standardised and modular electrolysers for the production of green hydrogen solely based on renewable energy. With its wide range of possible applications, green hydrogen plays a key role in the ongoing fundamental shift in our energy systems towards a net-zero emission society in 2050. As a result, the demand for green hydrogen is surging, requiring a significant scale-up of electrolysis capacity. Founded in 2007 and building on more than 10 years of technology development, Green Hydrogen Systems today have a commercially proven and cost-competitive electrolysis technology endorsed by leading green energy companies.
