

Ascelia Pharma announces publication of Orviglance clinical study in Journal of Magnetic Resonance Imaging

Ascelia Pharma AB (publ) (STO: ACE), a biotech company focused on improving the lives of people living with rare cancer conditions, today announced the publication of a peer-reviewed article related to Orviglance® in the Journal of Magnetic Resonance Imaging (JMRI), one of the leading peer-reviewed journals in the field of magnetic resonance imaging.

The article, titled "Pharmacokinetics and Pharmacodynamics of a Single Oral Dose of Ascelia-Manganese-Based MRI Contrast Agent (ACE-MBCA) in Adult Subjects With and Without Hepatic Impairment", adds to the peer-reviewed scientific literature supporting Orviglance and its clinical development. The publication includes contributions from internationally recognized experts from leading academic and clinical institutions.

"We are pleased to see these data published in a leading scientific journal. This peer-reviewed publication adds to the growing body of evidence supporting Orviglance and reinforces its differentiated profile as a novel manganese-based contrast-agents for liver imaging," said Magnus Corfitzen, CEO of Ascelia Pharma.
