

Axentia signs agreement with HTM Personenvervoer NV in The Hague, Netherlands

Axentia Technologies AB, part of Axentia Group AB (publ), has signed an agreement with the Public Transport Authority in The Hague and surroundings (Netherlands), HTM Personenvervoer NV regarding an order of more than 800 E-paper digital traffic information displays with real-time using low-powered battery-operated technique.

In addition, the agreement also includes service and maintenance of the E-paper displays for 10 years.

“We are honored to be chosen to provide the administrative capital of the Netherlands, The Hague, with our battery-operated iBus E-paper displays and thereby assist to make public transport more attractive,” says Dick Ollas, Managing Director at Axentia.
