Skanska signs an additional contract for a data center in Virginia, USA, worth USD 238M, about SEK 2.2 billion

Skanska has signed an additional contract with an existing client to build a data center in Virginia, USA. The contract is worth USD 238M, about SEK 2.2 billion, which will be included in the US order bookings in the third quarter of 2026.

The project includes the construction of a 22,000 square-meter (237,000-square-foot) data center, including five data halls, associated site work, and underground site utilities. This will be the second building constructed on the campus.

Construction will start in August 2026 and will be completed in May 2028.
