Impero A/S signs agreement with new Danish family-owned enterprise customer

Investor News No. 6-2026

Copenhagen, 24 June 2026

Impero is pleased to announce that a large Danish family-owned private company has signed a two-year subscription agreement with Impero. The contract will commence in June, meaning that ARR from the new contract will be included in Q2 2026.

The agreement covers the implementation and use of Impero's platform to enhance and streamline the company's internal control processes and documentation across its finance function.

"We are pleased to welcome a new large, privately held Danish enterprise customer. Operating across multiple entities and geographies, the customer represents the type of complex organizational structure that our platform is built to serve. Our new capabilities within Entity Management were a key factor in the customer's choice of Impero, validating our ability to address the needs of large, multi-entity organizations. This agreement further strengthens our position in our home market, where we serve a broad cross-section of customers – including major listed companies, public organizations, and reputable private enterprises," says Rikke Stampe Skov, CEO of Impero A/S.

In accordance with Impero's communication policy, the signed agreement is announced as an investor news because the signed agreement has an ARR above Impero's latest reported Average ARR Per Account (ARPA). The agreement does not change the company's financial guidance for 2026.
