## IT – Fusion FI Update

As previously [announced](#), Nasdaq Nordic and Baltic will migrate the trading of fixed income cash and derivatives, currently on the Genium INET platform, to the new Fusion FI platform.

### Test environment update

One market in **FI Test** will be configured for Auctions tests starting Monday July 21.

The affected test market is:

**HEL FB      HEL FN Bond Market**

The Opening Auction will take place between 08:00 until 15:00 CET and then will follow the normal market schedule until End of Day.

### Further information

Information on the migration to the new trading system is available on the web page below. The site will be continuously updated.
