

AMBU UPDATES FINANCIAL OUTLOOK FOR 2025/26

25.8.2026 18:00:00 CEST | Ambu A/S | Inside information

For the full year 2025/26, Ambu now expects organic revenue growth of around 10% and EBIT margin of 12-14%. The updated organic revenue growth guidance reflects slower volume uptake in Anesthesia & Patient Monitoring, which is now expected to deliver very low-single-digit organic growth for the full year. As the key growth driver, Endoscopy Solutions maintains its +15% organic growth outlook. The EBIT margin is expected to be toward the high end of the 12-14% guidance range, supported by continued operating leverage and tariff refunds.
