

## **Finnish Private Clinic Group Orders Additional Nexstim NBS 6 System**

*Press Release, Helsinki, 31 July 2026 at 1 PM (EEST)*

Nexstim Plc ("Nexstim" or "Company") has received an order for one NBS 6 therapy system from a customer in Finland. The customer is a private healthcare provider and existing Nexstim customer that is expanding its service offering by installing an additional NBS 6.

In therapy, the NBS 6 system is CE-marked for the treatment of major depression and chronic neuropathic pain. The NBS 6 enables Nexstim's unique E-field navigated TMS technology to be used more easily than ever before. Part of this new product generation is an easy-to-use, software-guided application and a modular product design that allows for system capabilities to expand over time and be highly customized based on a customer's research or clinical interests.

**Mikko Karvinen**, CEO of Nexstim, comments: *"We are delighted to see our customer continue to expand the use of Nexstim technology. This order reflects the confidence our customers place in the clinical value and usability of our NBS 6. We look forward to supporting this expansion and helping more patients gain access to personalized TMS therapy."*

### **About Nexstim Plc**

Nexstim is a Finnish, globally operating growth-oriented medical technology company. Our mission is to enable personalized and effective diagnostics and therapies for challenging brain diseases and disorders.

Nexstim has developed a world-leading non-invasive brain stimulation technology for navigated transcranial magnetic stimulation (nTMS) with highly sophisticated 3D navigation providing accurate and personalized targeting of the TMS to the specific area of the brain.

Nexstim's Diagnostics Business focuses on commercialization of the NBS System 6, which is the only FDA-cleared and CE-marked navigated TMS system for pre-surgical mapping of the speech and motor cortices of the brain.

Nexstim's Therapy Business markets and sells the NBS System 6 which is FDA-cleared for marketing and commercial distribution for the treatment of Major Depressive Disorder (MDD) in adult and adolescent patients who have failed to achieve satisfactory improvement from prior antidepressant medication in the current episode, and as an adjunct for the treatment of adult patients suffering from Obsessive Compulsive Disorder (OCD). In Europe, the NBS System 6 is CE-marked for the treatment of major depression, chronic neuropathic pain as well as post-operative rehabilitation of motor deficits of the upper limb.

Nexstim shares are listed on Nasdaq First North Growth Market Finland.
