GOODBYE KANSAS SECURES CO-DEVELOPMENT ORDER FOR LEADING GLOBAL GAME FRANCHISE

Goodbye Kansas has signed an order with an existing client to provide high-end animation and co-development support for a leading global game franchise. The order value amounts to approximately SEK 5 million, with final delivery expected during Q4 2026.

The project will see a dedicated Goodbye Kansas team work closely alongside the client as part of the ongoing development of the franchise. The order builds on an existing relationship and further demonstrates the company's ability to apply its high-end animation and cinematic expertise across a broader range of game production and live-service content.

"Co-development is an increasingly important part of our strategy, bringing Goodbye Kansas' high-end creative talent closer to the heart of some of the world's biggest games. We see significant opportunity in combining our cinematic heritage with deeper, ongoing development relationships, and we are very pleased to continue building that kind of partnership with this client," said Carsten Myhill, CEO of Goodbye Kansas Group.
