Irisity further extends existing credit facility with largest shareholder

Gothenburg, Sweden – September 23, 2026 – Irisity AB (publ), a provider of AI-driven video data management software, announces that it has agreed with its largest shareholder, Stockhorn Capital AB, to to enter into a second amendment to the existing credit facility amend it from up to SEK 10 million to up to SEK 15 million.

The second amendment provides Irisity with additional financing as the company continues to execute its strategic plan and finalises its ongoing simplification and efficiency measures. The additional capacity is intended to provide flexibility in managing working capital during the remaining implementation of the company's transformation plan.

This is the second amendment to the facility and follows the amendment announced on 17 August 2026, when the maximum amount was increased from up to SEK 5 million to up to SEK 10 million. The Board of Directors of Irisity has resolved to approve the amendment following arm's length negotiations and on market-based terms.

The terms of the facility otherwise remain unchanged, including an annual interest rate corresponding to STIBOR 3M plus 4 percentage points and no other costs for the company.

Irisity remains focused on disciplined cost management, completing the simplification of its operations and building on the cash-flow-neutral performance achieved in the previous quarter while continuing to work towards a self-sustaining operating model.
