ANNOUNCEMENT NO. 324

3 November 2026

Upgrade of revenue and operating profit guidance

ChemoMetec maintained its positive momentum in the months of the 2026/27 financial year, supported by higher-than-expected demand for our instruments, with the NC-203 being a key driver, including a lower-than-expected cost base.

Based on this, the Company now expects revenue for the 2026/27 financial year in the DKK 570-605 million range, up from DKK 560-590 million in the most recent guidance, and EBITDA in the DKK 335-360 million range, up from DKK 330-345 million previously.

ChemoMetec's financial results for the first quarter of 2026/27 are scheduled to be released on Thursday, 5 November 2026. The results will show that revenue increased by 28% in Q1 2026/27 to DKK 160.0 million, compared with DKK 124.6 million in the same period last year. EBITDA amounted to DKK 100.3 million in Q1 2026/27, corresponding to an EBITDA margin of 63%, compared with 55% in the same period last year.
