Announcement no. 47/2026

Today, RTX announces that the company adjusts the outlook for the financial year 2025/26.

- Revenue 590 to 625 DKKm (from 575-625 DKKm)
- EBITDA 50 to 75 DKKm (from 35-65 DKKm)
- EBIT 20 to 45 DKKm (from 0-30 DKKm)

The adjustment reflects continued solid underlying customer demand, positive revenue development and good order visibility. However, current supply-side constraints continue to limit RTX's output capacity and thereby the pace at which demand can be converted into revenue in the short term. Continued investments in upskilling and organizational development are reflected in higher capacity costs, while an improved gross margin has contributed to a stronger EBITDA performance than previously expected.
