

Guideline Geo wins MSEK 3.8 order in South Korea

Guideline Geo has been awarded a government tender in South Korea from KALIS (Korea Authority of Land and Infrastructure Safety). The order is valued at MSEK 3.8, and delivery is scheduled within the third quarter.

The order includes multiple systems of Guideline Geo GPR (ground penetrating radar) solutions, from 2D MALÅ Easy Locator Core to 3D MALÅ MIRA Compact.

The contract was secured together with the Guideline Geo authorized distribution partner in South Korea, Bomin Global Co. Ltd.

Guideline Geo works with 85 distributors providing local representation in more than 50 countries. The global distribution network is a key driver of the company's growth strategy.

"This order demonstrates the strength of our broad GPR portfolio and the value of working closely with a strong and well-reputed local partner." says Per Westholm, CRO of Guideline Geo.
