IT – INET Nordic – REMINDER #2: Introduction of Auction Volume Discovery (AVD) Order Type

As previously communicated in IT notices published on [March 26, 2026](#), [May 7, 2026](#), [May 29, 2026](#), [August 28, 2026](#) and [September 19, 2026](#), Nasdaq Nordic and Nasdaq Baltic* are planning to introduce a new auction-only order type, Auction Volume Discovery (AVD), in the INET Nordic trading system.

Functionality activation - Nasdaq Helsinki: September 28, 2026

Summary of AVD

AVD is an auction-only order type for Opening and Closing Auctions, allowing participation in auction liquidity without impacting price formation. Execution occurs only at the final uncross price, with any residual volume cancelled. Individual AVD orders are not displayed as per order transparency in Auctions.

Functionality activation on various markets (first time that AVD orders are allowed to be submitted and AVD trades executed) will take place according to timeline shown in section

Planned Time Schedule below.

Protocol Specifications

AVD will be supported via existing FIX and OUCH interfaces. There will also be an impact on ITCH, NLS and GCF/TIP market data protocols.

Further details are available in the [Member Impact document](#).

Updated protocol specifications are published on [INET Nordic Protocol Specifications](#) webpage.

Legal

The Nasdaq Nordic Member Rules and INET Nordic Market Model have been updated to include the new AVD order type on September 21, 2026, and is available on the [Nasdaq Nordic Member Rules & Regulations](#) website.
