Investor News No. 47/2026: Dataprocés will participate in KapitalForum on 29 October 2026

We invite all investors and interested parties to join us

Dataprocés will be participating in KapitalForum on 29 October, where a number of listed companies and investors will come together.

We will share key perspectives on our development and the growth journey we are working purposefully to realise. But just as importantly, we look forward to hearing questions from investors.

KapitalForum gives you, as an investor, the opportunity to meet several listed companies, ask questions and provide direct feedback along the way. This means that we can not only share our vision, but also gain valuable insights directly from you.

We hope to see both new and familiar investors in Copenhagen or online.

You can participate either in Copenhagen or online, and registration is available via [Luma · KapitalForum 2026](#)

About Dataprocés Group A/S

Dataprocés is an innovative IT and consulting house, specializing in solutions targeted at the Danish municipalities and their digital administration. The solutions range widely from robot technology and SaaS to data analyzes as well as collaboration and consulting. The starting point and purpose are always the same: to use data to create new knowledge, smarter processes and increased efficiency for the benefit of both citizens and municipalities.

Dataprocés – we create value with data!
