

Fractal Gaming Group receives USD 2.12 million refund of IEEPA tariffs

Fractal Gaming Group AB has received a refund of USD 2.12 million of previously paid IEEPA tariffs. The amount includes approximately USD 0.1 million in interest. A further approximately USD 0.5 million remains to be refunded and is being handled in the ongoing process.

The refund will be recognized in the third quarter of 2026, largely as a reduction of cost of goods sold and partly as a reduction of inventory. The total amount will also have a corresponding positive effect on cash flow.

The company continues to monitor the development and application of current customs regulations in the U.S.
