Lundbeck raises financial guidance for 2026

H. Lundbeck A/S (Lundbeck) raises financial guidance for the full-year revenue and adjusted EBITDA growth at constant exchange rates (CER).

Lundbeck has increased its 2026 revenue outlook, primarily reflecting stronger expected full-year volumes for Vyepti® in the U.S., anticipated delay of Abilify Maintena® generic entry in key markets outside US, and a stronger-than-expected start in the newly established partner markets. Lundbeck now expects R&D investments of approximately DKK 5.6 - 5.9 billion. The updated guidance at CER is outlined below:

Financial guidance for 2026	Previous 2026 guidance	Revised 2026 guidance
Total revenue growth at CER	5% to 8%	7% to 9%
Adjusted EBITDA growth at CER	4% to 12%	8% to 14%

Additional information will be available in the company announcement: financial report for the period 1 January to 31 March 2026.

The above expectations to the revised 2026 outlook are based on assumptions including those described in the company announcement for the period 1 January 2026 to 31 March 2026 (Company announcement No. 791/2026) to be announced shortly.
