KSBR (Keski-Suomen Betonirakenne Oy) has been selected to carry out construction work as part of a data centre project for a technology company in Finland. The agreement was signed on 10 September 2026. KSBR is part of the GRK Group, and the project will be entered in GRK's order backlog in the third quarter.

The contract covers underground utilities, infrastructure construction and concrete structure work at the data centre site. The work will begin in September 2026 and is scheduled to be completed by the end of 2027.

"It is great to start a new project and see that we have earned the trust necessary for the construction of such demanding projects", says **Kasimir Kvist**, Director, Construction at KSBR.
