PRESS RELEASE October 29, 2024

Per Elfgren appointed new head of SSAB Special Steels

Per Elfgren has been appointed new head of SSAB Special Steels. He takes up the new position from his present role as head of Market Development at SSAB Special Steels.

Per Elfgren has extensive international experience of leading positions with responsibility for marketing, sales and product development, for example. For the past eight years, he has been a member of SSAB Special Steels' Management Team and has been responsible for market development and for Abraservice, a fully-owned SSAB company. Per Elfgren joined SSAB in 1996.

"Per has played a major role in taking SSAB Special Steels forward to its present position and he knows both the company and the culture well. His experience of the market and an international customer focus will be important in continuing to strengthen our unique customer offering in high-strength steel, and on our journey towards becoming a fossil-free company," says Johnny Sjöström, President and CEO of SSAB.

Per Elfgren Msc (Material Physics) will take up his new position on November 1, when he will also become a member of SSAB's Group Executive Committee. He succeeds Johnny Sjöström, who recently became President and CEO of SSAB.

SSAB is a Nordic and US-based steel company that builds a stronger, lighter and more sustainable world through value added steel products and services. Working with our partners, SSAB has developed SSAB Fossil-free™ steel and plans to reinvent the value chain from the mine to the end customer, largely eliminating carbon dioxide emissions from our own operations. SSAB Zero™, a largely carbon emission-free steel based on recycled steel, further strengthens SSAB's leadership position and our comprehensive, sustainable offering independent of the raw material. SSAB has employees in over 50 countries and production facilities in Sweden, Finland and the US. SSAB is listed on Nasdaq Stockholm and has a secondary listing on Nasdaq Helsinki.
