Brief description

AS Trigon Property Development is a real estate development company.

AS Trigon Property Development currently owns one real estate development project involving a 22.39-hectare area in the City of Pärnu, Estonia. Commercial real estate is planned to be developed on this area.

The Group is listed on the Tallinn Stock Exchange. On November 6, 2012, the Listing and Surveillance Committee of NASDAQ OMX Tallinn decided to delist AS Trigon Property Development shares from the Main List starting from November 21, 2012, and to admit the shares simultaneously to trading in the Secondary List.

OÜ Trigon Wood controls 51.91 % of the votes represented by shares in AS Trigon Property Development. The biggest shareholders of OÜ Trigon Wood are OÜ Stetind (46.99%) and AS Trigon Capital (45.18%) by the time of compiling these financial statements.

Management Board's confirmation

The Management Board confirms that:

1. the management report presented on pages 4 to 11 presents a true and fair view of the business developments and results, as well as of the financial position of the parent company and the consolidated subsidiaries as a whole, and includes a description of the main risks and doubts regarding the Group.
2. the accounting policies and the presentation of information of the 2017 consolidated financial statements of AS Trigon Property Development presented on pages 12 to 31 are in compliance with the International Financial Reporting Standards as adopted by the European Union;
3. the financial statements present a true and fair view of the financial position, the results of the operations and the cash flows of the Group;
4. the Group is a going concern.

Aivar Kemp

Member of the Management Board

30 April 2018

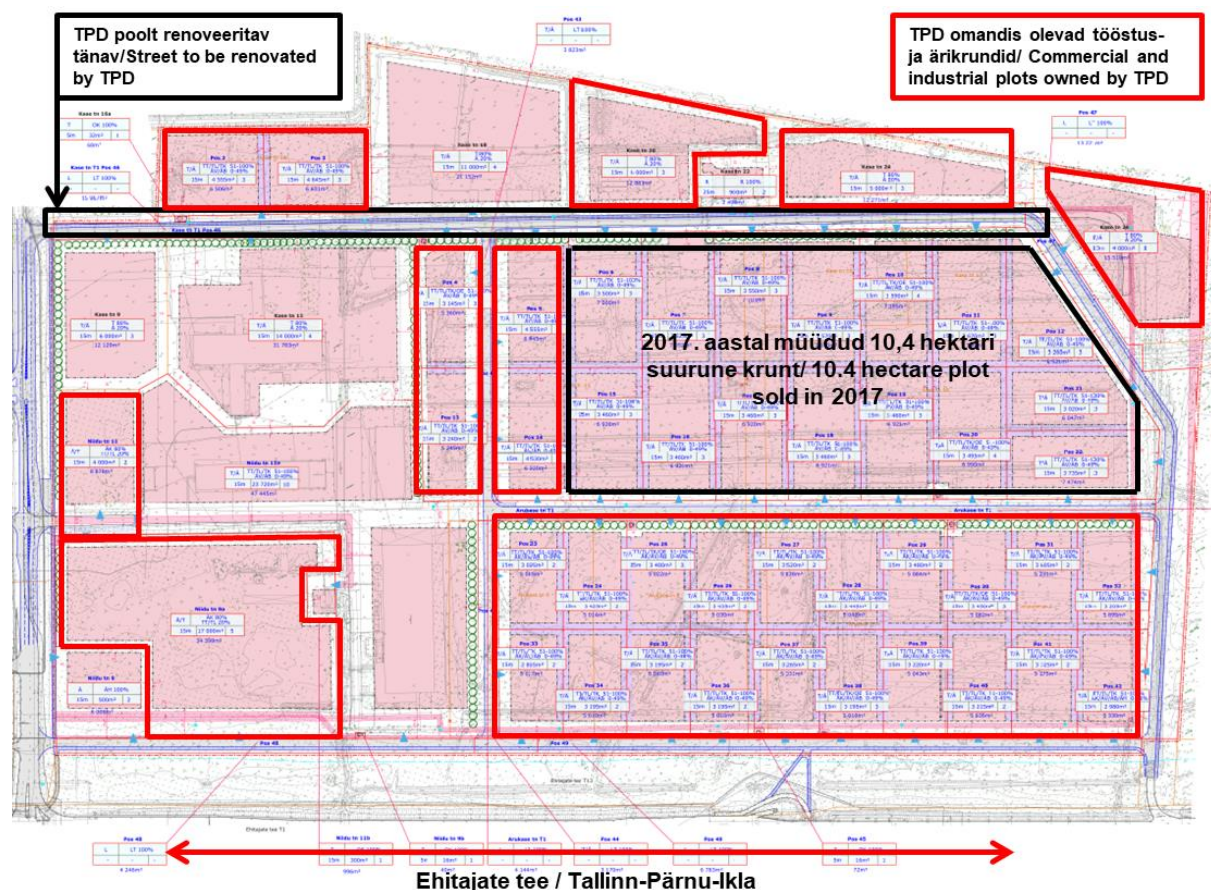

Management report

Overview of business areas

The main business activity of Trigon Property Development AS is real estate development. As at 31.12.2017, AS Trigon Property Development owned one development project with an area of 22.39 hectares in the City of Pärnu, Estonia. An industrial and logistics park is planned to be developed on this area. The Group's objective is to find companies willing to bring their business activities (industry, logistics) to the development project area of AS Trigon Property Development in Pärnu, which would add value to the land plots owned by the Group. The realisation of the value of the land is planned through the selling of land plots or through the development of real estate with the intention of creating a rental income-generating project.

In the first quarter of 2017 a 10.4-hectare industrial property at the price of 850 000 euros was sold. According to the real right contract, Trigon Property Development AS was obliged to build a road to the sold land plot. On 08.08.2017 AS Trigon Property Development and the buyer agreed on amending the sales agreement according to which the buyer is obliged to build the road and facilities according to the detail plan on its own expense. AS Trigon Property Development is no longer responsible for building the road and facilities and is not obliged to pay for the construction. Due to the change in contractual obligations the sale price of the property was amended and the sale price of Kase str 17 was 550 000 euros.

In 2016, a new detailed planning was made for the property, under which the proportion of business property with respect to all the land has increased compared to the previous planning. New established detailed planning has also increased the flexibility regarding the partial selling of the property as compared to the previous detailed planning since the plots are smaller and there is flexibility to change the size of the plots as required.

Management

The law, the articles of association, decisions and goals stated by the shareholders and the Supervisory Board are followed in the managing the company. According to the Commercial Code, a resolution on the amendment of the articles of association shall be adopted, if at least two-thirds of the votes represented at the general meeting are in favour of the amendment.

Group structure

Until 30 June 2016, the Group had one 100% subsidiary: VN Niidu Kinnisvara OÜ, which was set up for the development of the land located in the area of Niidu Street in Pärnu. On 1 July 2016, Trigon Property Development AS was merged with VN Niidu Kinnisvara OÜ. On 21 October 2016, the merger of Trigon Property Development AS and VN Niidu Kinnisvara OÜ was entered into the Commercial Register.

Economic environment

According to the SEB Nordic outlook, Estonia experienced remarkable economic growth in 2017 due to high volume of the construction sector. According to the prognosis the growth rate of the economy will remain strong in the coming years but not as strong as it was in 2017. According to the forecast, Estonia's GDP will increase by 3.5% in 2018 and 3.0% in 2019. The projected growth will be more balanced than in previous years supported by export, domestic investments and an increase in household consumption. The further growth of employment in Estonia will be limited, which in turn will provide the opportunity to improve the poor productivity levels. However in long term the question of whether we can invest our scarce resources in the most lucrative way so that the Estonian economy will remain competitive even after 10 years gains in importance.

In 2017, the Pärnu county saw a decrease in number of unbuilt land property transactions, yet their combined value increased, according to the Land Board of the Republic of Estonia. While the number of transactions in Pärnu county during 2017 decreased by 11% compared to 2016, falling to 973 transactions, the combined value of transactions increased by 4%, reaching 25 million. The combined value of transactions with commercial and industrial property decreased by 38% compared to 2016.

Financial ratios

Statement of financial position	2017	2016

Book value of the share = equity / number of shares

Price-to-book ratio = closing price of the share / book value of the share

Market capitalization = closing price of the share * number of shares

Seasonality and the risks of the operating activities

The main business activity of the Company is real estate development, which by its nature is not significantly seasonal. Real estate development activities and the sales of development properties depend largely on the economic environment, which means that the operating activities are cyclical and highly correlated with the business cycle developments. The management assesses the impact of the current economic environment to the business activity as positive, which is reflected in strong growth in the volume of real estate transactions in the region of Pärnu. The positive environment is expected to increase the demand for investment property of Trigon Property Development AS and potentially increase the value of these assets over time. The change of the economic environment from positive to negative can be considered as a risk, which could potentially result in decreased demand for and value of the assets of the Company.

The Company's assets are accounted for in euros, settlements are also in euros, the shares are listed and traded in euros. Thus, there are no risks regarding foreign exchange rates and stock exchange rates. However, the risks which are or may be considered as most important by the assessment of the Group are described in note 3.

Environmental and social impacts

The development activities of the Company, based on the valid detailed planning, has no significant impact on the environment regarding environmental protection. Development activities follow the environmental conditions set out in the detailed planning as well as relevant recommendations. Development activities are based on an environmentally friendly production. The direction taken is the development of lighter activities with a business property function, which according to the Group's estimates, improve the region's quality of life, including the access to services and has a positive impact both socially and environmentally.

Share

Since 5 June 1997, the shares of Trigon Property Development AS have been listed on the Tallinn Stock Exchange. Trigon Property Development AS has issued 4,499,061 registered shares, each with the book value of 0.511 euros. The shares are freely transferable, no statutory restrictions apply. There are no restrictions on transfer of securities to the company as provided by contracts between the company and its shareholders.

The share, with a price of 0.592 at the end of 2016, closed at 0.550 euros at the end of December 2017. In 2017, a total of 175,595 shares were traded and the total sales amounted to 103,369 euros. Additionally 346,667 shares were traded over-the-counter, transaction price was 182,000 euros.

No specific control rights have been granted to the shareholders. There are no restrictions in voting rights stipulated in the articles of association that would be different from the law; there are no preference shares.

The Company does not have a separately approved dividend policy; therefore the distribution of the profit takes place in accordance with the Commercial Code and the articles of association whereby the General Meeting of the Company decides on the distribution and the payment method of profit.

Staff

AS Trigon Property Development had no employees as at 31 December 2017 and as at 31 December 2016. There were no labour costs in 2017 or 2016.

Corporate Governance Report

Corporate Governance Recommendations (Recommendations) are a set of guidelines and advisable rules recommended to be followed in terms of management and control primarily by listed companies whose shares have been admitted to trading on a regulated market operating in Estonia.

The listed companies must comply with the Recommendations starting from 1st of January 2006 (*"comply or explain"* principle).

The Recommendations regulate, among other matters, the convening and the procedure of the General Meeting of Shareholders; requirements for the compositions, duties and activities of the Management and Supervisory Board, disclosure requirements and financial reporting.

As the principles set out with the Recommendations are merely just recommendations in the nature, a company is not obligated to comply with all of them. However it shall explain in the Corporate Governance Report the reasons of its non-compliance.

AS Trigon Property Development (TPD) follows the laws and legal regulations in its business activities. As a public company, TPD is guided by Nasdaq OMX Baltic Stock Exchange (Tallinn Stock Exchange) requirements and the principle of equal treatment of shareholders and investors. Therefore TPD follows the guidelines of Recommendations in general.

The Recommendations are available:
<http://www.nasdaqbaltic.com/files/tallinn/bors/press/HYT.pdf>

General Meeting of Shareholders

The highest governing body of TPD is the general meeting of shareholders (General Meeting). According to the Commercial Code and Recommendations, TPD convenes the General Meeting by publishing the respective notice via Tallinn Stock Exchange, on the web page of TPD and in the national daily newspaper. Simultaneously the following is published: General Meeting agenda approved by the Supervisory Board, draft resolutions with regards to each agenda item, documents to be submitted for exercising voting rights and other essential information. Both the notice and aforementioned information is published in Estonian and in English. The ordinary General Meeting is held once a year. The management board may call extraordinary General Meetings in the cases set out in the law.

11.05.2017 ordinary General Meeting was held where 59,67% of votes represented by shares were present. At the General Meeting the shareholders approved Annual Report 2016, covering of loss proposal and elected auditor for 2017. It was also decided to introduce no par value shares and adopt the amended articles of association. Additionally the shareholders approved the reduction of share capital which was carried out by making a monetary payment to shareholders. New amount of share capital is 2,299,020.17 euros. At the meeting the management board gave an overview of the activities during past year.

16.10.2017 extraordinary General Meeting was held where 59,62% of votes represented by shares were present. The shareholders decided to as of 16.10.2017 recall Martin Mets from the supervisory

board and elect Torfinn Losvik as the new members of the supervisory board with the term of office of 5 years.

TPD herein presents requirements of Recommendations with “*comply or explain*” principle i.e. explains the requirements of the Recommendations that were partly or wholly not complied with.

Article 1.3.1: The Chairman of the Supervisory Board and members of the Management Board cannot be elected as Chair of the General Meeting.

The shareholders elected the member of Management Board Aivar Kempfi to chair the ordinary General Meeting held on the 11th of May in 2017 and the extraordinary General Meeting held on 16th of October in 2017 because the member of the Management Board has the best overview of the company’s activities and the every-day manager of the company ensured the smooth course of the meeting.

Article 1.3.2: All Members of the Management Board, the Chairman of the Supervisory Board and if possible, the members of the Supervisory Board and at least one of the auditors shall participate at the General Meeting.

The member of the Management Board and one member of Supervisory Board participated in the ordinary General Meeting held on 11.05.2017 and in the extraordinary General Meeting held on 11.05.2017. The other two members of the Supervisory Board and an auditor were not present at the meeting. The Supervisory Board is convinced that presence of one member is sufficient. No auditors were present at the meeting since there were no agenda items which could not be replied by the participating Supervisory Board member or Management Board. At the same time, TPD had agreed with the auditors that they will be available via phone should the shareholders wish (for example, ask questions). Shareholders had no questions to the auditors.

Article 1.3.3: The Company shall make participation in the General Meeting possible by means of communications equipment (Internet) if the technical equipment is available and where doing so is not too cost prohibitive for the Issuer.

TPD did not make participation in the General Meeting possible by means of communications equipment since no such technical solutions are available to TPD.

Considering the aforementioned descriptions of general meetings held in 2017, TPD has largely complied with the Recommendations in informing the shareholders, convening and holding the general meeting.

Supervisory Board

Supervisory Board plans the activities of TPD, guides and supervises the Management Board. TPD Supervisory Board comprises of 3 members, according to the Articles of Association up to 7 members may be elected in the Supervisory Board. No transactions with Supervisory Board members or their related parties were executed in 2017. No remuneration was paid to Supervisory Board members in 2017, therefore no respective information in this regard is to be published. No conflict of interest events occurred in 2017 between TPD and the other activities of the Supervisory Board members.

TPD herein presents requirements of Recommendations with “*comply or explain*” principle.

Article 3.2.2: At least half of the members of the Supervisory Board of the Issuer shall be independent. If the Supervisory Board has an odd number of members, then there may be one independent member less than the number dependent members.

Two members of the Supervisory Board couldn’t be considered as independent in 2017 in the meaning of the Recommendations. Joakim Johan Helenius is the member of the Management Board of OÜ Trigon Wood, the controlling shareholder of TPD and Martin Mets, who was the member of the supervisory board until October 2017, was also member of the management board of AS Trigon Capital, shareholder of OÜ Trigon Wood, and a member of the management board of several group

companies of AS Trigon Capital. The newly elected member Torfinn Losvik is the member of the Management Board of OÜ Trigon Wood, the controlling shareholder of TPD. Regardless of the above, TPD is in the opinion that there is no basis for emergence of conflict of interest and taking into account the background and experience of the current Supervisory Board members there are no deficiencies in the activities of the Supervisory Board.

Management Board

According to the Articles of Association up to 7 members may be elected to the Management Board of TPD. In order to elect a member of the Management Board, his or her consent is required. According to the Articles of Association, a member of the Management Board shall be elected for a specified term of up to three years. Extension of the term of office of a member of the Management Board shall not be decided earlier than one year before the planned date of expiry of the term of office, and not for a period longer than the maximum term of office prescribed by the law or Articles of Association. Currently, the Management Board of TPD has one member.

The Management Board member has the right to represent TPD by himself. The Management Board member is not authorized to issue shares or decide the acquisition of own shares. Transactions which are beyond the scope of everyday economic activities may only be concluded by the Management Board with the consent of the Supervisory Board.

No remuneration was paid to Management Board member in 2017, therefore no respective information in this regard is to be published. No transactions with Management Board member or his related parties were executed. Management Board answers to and cooperates with the Supervisory Board, participates at the General Meetings, replies to shareholders' inquiries and runs TPD on a daily basis. No conflict of interest events have occurred as the other activities of the Management Board member are not related to property in Pärnu where TPD owns real estate.

In 2017 the Management Board concluded a real right agreement about the transfer of ownership of a property to AS Metsä Wood as was previously agreed in a sales agreement.

The following in the Recommendations were not complied with and below explanations are presented.

Article 2.2.1: The Management Board shall have more than one (1) member; a service contract shall be concluded with the member of the management board.

Aivar Kempfi is the only member of the Management Board, but enlargement of the Board is not ruled out in the future.

No service contract is concluded with Aivar Kempfi since he is currently the only Member of the Management Board and is not receiving remuneration and his rights and obligations are stipulated by the law. In case more members of the Management Board are appointed, service contracts shall be concluded.

Publishing financial reports and other information

During 2017, TPD published interim reports and Annual Report 2016. The Annual Report is audited by AS PricewaterhouseCoopers. The audit is done in compliance with international standards on auditing.

TPD herein presents with "comply or explain" principle the requirements of Recommendations which were not complied with.

Article 5.2: The Issuer shall publish the disclosure dates of information subject to disclosure throughout a year at the beginning of the fiscal year in a separate notice, called financial calendar.

TPD did not publish a separate financial calendar however information subject to disclosure was published not later than dates set by the law.

Article 5.6: The Company shall disclose the dates and places of meetings with analysts and presentations and press conference organized for analysts, investors or institutional investors on its website.

The Tallinn Stock Exchange Regulations require that an issuer publishes all essential information through the stock exchange system. Only previously published information is discussed in meetings with analysts and press conferences and therefore TPD has foreseen no need to disclose meetings schedule.

Article 6.1.1: Together with the annual report, the Supervisory Board shall make available to shareholders the written report concerning the annual report.

No report was published simultaneously with the notice of General Meeting; however, the participating member of Supervisory Board gave an overview of the report at the General Meeting.

Article 6.2.1: If there is a desire to appoint an auditor who has audited Issuers reports on previous financial year the Supervisory Board shall pass judgment on their work.

No judgment was published simultaneously with the notice of General Meeting; however, the participating member of Supervisory Board expressed judgment at the General Meeting.

Notes to the financial statements

1 General information

AS Trigon Property Development (The Company) and its subsidiary (together Group) are active in real estate development. The parent company of the Group is a limited liability company (Estonian: aktsiaselts) that is registered and located in Estonia. The registered address of the company is Pärnu Rd 18, Tallinn.

The Management Board of AS Trigon Property Development authorised these consolidated financial statements for issue on 30 April 2018. Pursuant to the Commercial Code of the Republic of Estonia, the financial statements are subject to approval by the Supervisory Board and the General Meeting of Shareholders. The financial statements will be published through the electronic channels of Tallinn Stock Exchange.

The 2017 consolidated financial statements of AS Trigon Property Development have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union.

The consolidated financial statements have been prepared in euros (EUR).

The Group is listed in the secondary list of Nasdaq OMX Tallinn Stock Exchange. In total, OÜ Trigon Wood controls 51.91 % of the votes represented by shares in AS Trigon Property Development. The biggest shareholders of OÜ Trigon Wood are OÜ Stetind (46.99%) and AS Trigon Capital (45.18%) by the time of compiling these financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union. The financial statements have been prepared under the historical cost convention, except investment property, which is presented at fair value.

The preparation of the financial statements in accordance with IFRS requires management to make assumptions and judgements, which affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. The estimates and the related assumptions are based on the historical experience and several other factors that are believed to be relevant and that are based on circumstances which help define principles for the evaluation of assets and liabilities and which are not directly available from other sources. Actual results may not coincide with these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is changed if it affects only the current period, or current and future periods, if the revision affects both current and future periods.

Management decisions and accounting estimates related to the application of IFRS that have a significant effect on the financial statements and that may be subject to adjustment are presented in Note 4.

2.2 Functional and presentation currency

The 2017 consolidated financial statements have been presented in euros (EUR). Functional currency of Group is euro.

2.3 Principles of consolidation and accounting for subsidiaries

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. The consolidation is terminated from the date at which control ceases.

In the consolidated financial statements, the financial statements of all subsidiaries under the control of the parent company are combined on a line-by-line basis. All intragroup receivables and liabilities, transactions between group companies and the resulting unrealised profits and losses have been fully eliminated. Unrealised losses have also been eliminated unless the transaction provides evidence of an impairment loss.

Investments into subsidiaries are reported at cost (less any impairment losses) in the separate primary financial statements of the parent company (Note 17).

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Additional information about the subsidiary has been disclosed in Note 12.

2.4 Cash and cash equivalents

For the purposes of the balance sheet and the cash flow statement, cash and cash equivalents are comprised of cash on hand, bank account balances (except for overdraft) and term deposits with maturities of three months or less. Cash and cash equivalents are carried at amortised cost.

2.5 Financial assets and liabilities

Classification

The Group classifies its financial assets in the following categories:

- at fair value through profit or loss,
- loans and receivables,
- available for sale financial assets and
- financial assets held to maturity.

The classification depends on the purpose for which the financial assets were acquired. The management determines the classification of its financial assets at initial recognition. During the accounting period and comparable period the group has not classified any financial assets into categories "at fair value through profit or loss", "available for sale" or "held to maturity".

Measurement

Regular purchases and sales of financial assets are recognised on the settlement date. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Loans and receivables are initially recognised at fair value plus transaction costs and are subsequently carried at amortised cost using the effective interest method, considering any allowances for impairment.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. Loans and receivables are classified as trade receivables and loans to clients in the balance sheet.

Impairment of financial assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

For valuation of loans and receivables several risks are prudently considered. The collection of each specific receivable is assessed on an individual basis, taking into consideration all known information on the solvency of the client. The Group assesses whether objective evidence of impairment exists considering such situations as: the clients' financial difficulties, bankruptcy or inability to fulfill their obligations to the Group. The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the client's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account. Irrecoverable receivables are removed from the balance sheet against the related allowance for loan impairment.

Financial Liabilities

All Groups' financial liabilities are recorded as "other financial liabilities at amortised cost". Financial liabilities (trade payables, borrowings etc.) are initially recognised at their fair value less any transactions costs. The items are subsequently measured at amortised cost, differences between acquisition costs (less transaction costs) and redemption costs are recognised during the loan period, using effective interest rate method.

Financial liabilities is classified as current, unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.6 Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property.

Investment property comprises freehold land.

Investment property is measured initially at its cost, including related transaction costs and is subsequently measured at fair value. After initial recognition investment properties are carried at their fair value which is either determined annually by independent valuers or management, based on the market value using comparable market transactions which have occurred recently (adjusting differences in assessment) or by using the discounted cash flow method. The amount of the revaluation gain or loss is included within the "gain/loss from property investment revaluation" in the statement of comprehensive income. Depreciation is not calculated for investment property recognised under the fair value method.

Subsequent expenditure is charged to the assets carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the income statement during the financial period in which they incurred.

Property that is being constructed or developed for future use as investment property is classified as investment properties.

2.7 Operating lease and finance lease

Leases in which a significant portion of the risks and rewards of ownership are transferred to the lessee are classified as finance leases. All other leases are classified as operating leases.

Payments made or received under operating leases are charged to the income statement on a straight-line basis over the period of the lease. Properties leased out under operating leases are classified as investment property.

2.8 Provisions and contingent liabilities

Provisions are recognised in the balance sheet when the Group has a present legal or contractual obligation arisen as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and the amount has been reliably estimated.

The provisions are recognised based on the management's (or independent experts') estimates regarding the amount and timing of the expected outflows. When measuring provisions, risks and uncertainties are taken into consideration. Provisions are discounted when time value of money has significant impact and future events are taken into consideration, however no profits are recorded from disposal of assets. The increase in the provision due to passage of time is recognised as interest expense.

Other commitments that in certain circumstances may become obligations, but it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability are disclosed in the notes to the financial statements as contingent liabilities.

2.9 Corporate income tax

According to the Income Tax Act of Estonia, the annual profit earned by entities is not taxed in Estonia. Corporate income tax is paid on dividends, fringe benefits, gifts, donations, reception fees, non-business related disbursements and adjustments of the transfer price. Since 01.01.2015, the tax rate on the net dividends paid out of retained earnings is 20/80. In certain circumstances, it is possible to distribute dividends without any additional income tax expense. The corporate income tax arising from the payment of dividends is accounted for as a liability and as an income tax expense in the period in which dividends are declared, regardless of the actual payment date or the period for which the dividends are paid. An income tax liability arises at the 10th day of the month following the payment of dividends.

Due to the peculiarity of the taxation system, the companies registered in Estonia do not have any differences between the tax bases of assets and their carrying amounts and hence, no deferred income tax assets and liabilities arise. A contingent income tax liability which would arise due the payment of dividends out of retained earnings is not reported in the balance sheet. The maximum income tax liability which would accompany the payment of dividends out of retained earnings is disclosed in the notes to the financial statements.

From 2019, tax rate of 14/86 can be applied to dividend payments. The more beneficial tax rate can be used for dividend payments in the amount of up to the average dividend payment during the three preceding years that were taxed with the tax rate of 20/80. When calculating the average dividend payment of three preceding years, 2018 will be the first year to be taken into account.

2.10 Revenue

Revenue is recognised at the fair value of the consideration received or receivable net of value-added tax, returns, rebates and discounts.

Revenue from the rendering of services is recognised in the period in which the services are rendered. If a service is rendered over a longer period of time, revenue is recorded using the stage of completion method.

Lease income from operating leases is recognised on a straight-line basis over the lease term. Lease incentives granted to lessees upon concluding lease agreements are deducted from lease income.

2.11 Cash flow statement

The cash flow statement is prepared using the indirect method. Cash flows from operating activities are determined by adjusting the net profit for the financial year through elimination of the effect of non-monetary transactions, changes in the balances of assets and liabilities related to operating activities and revenue and expenses related to investing or financing activities.

Investment and financial activities cash flow statement is prepared using the direct method.

2.12 Statutory reserve capital

Statutory reserve capital is formed from annual net profit allocations, also from other allocations which are transferred according to law or articles of association. The amount of reserve capital is stipulated in the articles of association and it cannot be less than one-tenth of the share capital. During each financial year, at least one-twentieth of the net profit shall be entered into the reserve capital. Increasing the statutory reserve capital from annual net profit allocations shall be finished if the reserve capital reaches to the amount that is stipulated in the articles of association.

Statutory legal reserve may be used to cover a loss, or to increase share capital. Payments shall not be made to shareholders from statutory legal reserve.

2.13 Earnings per share

Basic earnings per share are calculated by dividing the net profit for the financial year attributable to the equity holders of the parent company by the period's weighted average number of outstanding ordinary shares. Diluted earnings per share are calculated by dividing the net profit of the financial year attributable to the equity holders of the parent company by the weighted average number of outstanding ordinary shares, adjusted for the effect of potential dilutive shares.

2.14 Events after the balance sheet date

Significant circumstances that have an adjusting effect on the evaluation of assets and liabilities and that became evident between the balance sheet date and the date of approving the financial statements 30 April 2018 but that are related to the reporting period or prior periods, have been recorded in the financial statements. Non-adjusting events and the events that have a significant impact on the results of the next financial year have been disclosed in the notes to the financial statements.

2.15 New International Financial Reporting Standards, amendments to existing standards and the interpretations of the standards by International Financial Reporting Interpretations Committee (IFRIC)

New IFRS standards and amendments and interpretations to existing standards have been published by the time of compiling these financial statements, which became effective for the Group's reporting periods beginning on or after 1 January 2017 and which Group has not early adopted.

Adoption of New or Revised Standards and Interpretations

New or revised standards or interpretations that became effective for the first time for the financial year on 1 January 2017 presumably do not have a material impact to the Group's financial statements.

New Accounting Pronouncements

There are no other new or revised standards or interpretations that are mandatory for the Group's annual periods beginning on or after 1 January 2018 that would be expected to have a material impact on the Group.

3 Finance risk management

3.1 Financial risks and their management

In its daily operations, the Group is exposed to different kinds of financial risks: market risk (including foreign exchange risk, price risk, interest rate risk, fair value interest rate risk), credit risk and liquidity risk. Financial risk is related to the following financial instruments: trade receivables, cash equivalents, trade payables, other liabilities, loans payable. Accounting principles that are used to account for these assets and liabilities have been disclosed in the note 2. Risk management is executed by the Management and coordinated by the Supervisory Board.

(a) Market risk

(i) Foreign exchange risk

Foreign exchange risk is the Group's risk of incurring major losses due to exchange rate fluctuations. Group's monetary assets, other assets and liabilities are nominated in euros.

(ii) Price risk

The Group is not exposed to the price risk with respect to financial instruments.

(iii) Cash flow and fair value interest rate risk

As the Group has no significant interest-bearing assets and liabilities, its income and operating cash flows are substantially independent of changes in market interest rates. The change in market interest rates has indirect influence to the change of fair value of investment property, but the influence to the change of fair value of investment property is difficult to quantitatively evaluate.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as prepayments and customer receivables, including outstanding receivables and committed transactions. The Group's policy is to collaborate only with institutions whose main investors are internationally known financial organisations. As at 31 December 2017 and 31 December 2016 the cash of the Group was deposited in Swedbank (credit rating A2 by Moody's Investor Service). Prepayments to the Tax Authority are considered not credit risk bearing. Receivables from customers are considered short-term in nature and management monitors the collection of these receivables. As at the date of the statement of financial position, the Group's exposure to credit risk is 78,106 euros (31.12.2016: 38,393 euros) including cash in the bank and receivables.

(c) Liquidity risk

To finance the potential investments needed to be made and share capital reduction in 2017, the Group partly sold the investment property owned by the Group in 2017. The cash received from disposal of investment property in 2017 and accounts receivable and cash in bank balance as at 31.12.2017 will secure the settlement of liabilities at due date and will support the development of investment property.

As at 31 December 2017, the Group has current liabilities in the amount of 61,113 euros (31.12.2016: 14,297 euros). Group had no non-current liabilities.

3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns to shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group intends to retain the current capital structure until the beginning of real estate development. Neither the Group's owners or the management has set any specific requirements for its capital management or expectations for shareholder return. For the development period, external financing in the form of bank loans is planned to be used.

At the date of the annual report 2017, the Group was leading only the equity as the Groups' capital and there were no changes in the capital requirements. Quantitative data about capital and the changes are to be seen in the consolidated statement of changes in owners' equity. The Group does not have any other capital requirements beyond the general requirements of the Commercial Code. The respective requirements are not violated during the reporting period or during the comparison period.

3.3 Fair value of financial assets and financial liabilities

The Group's management estimates that the fair values of the assets and liabilities denominated in the balance sheet at amortised cost do not differ significantly from their carrying values as at 31 December 2017 and 31 December 2016.

3.4 Valuation of property measured at fair value

The market in Estonia for many types of real estate has been severely affected by the recent volatility in global financial markets. As such, the carrying value of land and buildings measured at fair value in accordance with IAS 40 has been updated to reflect market conditions at the reporting date. However, in certain cases, the absence of reliable market-based data has required the Group to amend its valuation methodologies.

The fair value of investment property accounted for using the fair value model in accordance with IAS 40 is updated to reflect market conditions at the end of the reporting period. Fair value of investment property is the price at which the property could be exchanged between knowledgeable, willing parties in an arm's length transaction. A "willing seller" is not a forced seller prepared to sell at any price. The best evidence of fair value is given by current prices in an active market for similar property in the same location and condition. In the absence of current prices in an active market, the Group considers information from a variety of sources, including:

- a) current prices in an active market for properties of different nature, condition or location, adjusted to reflect those differences;
- b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

4 Critical accounting estimates and judgements

Management judgements and estimates are reviewed on an ongoing basis and they are based on historical experience and other factors such as forecasts of future events which are considered reasonable under current circumstances.

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below (Note 6).

5 Receivables and prepayments

EUR	31.12.2017	31.12.2016
Tax prepayments	9,231	5,022
TOTAL	9,231	5,022

6 Investment property

	EUR
Balance as of 31.12.2015	2,310,000
Capital expenditure on investment property	13,132
Loss from change in fair value	-1,600
Sales of investment property	-850,000
Balance as at 31.12.2016	1,471,532
Capital expenditure on investment property	19,942
Reclassification from assets held for sale	300,000
Balance as at 31.12.2017	1,791,474

As at 31 December 2017, the Group owns one real estate development project involving a 22.39-hectare area in the City of Pärnu, Estonia.

The expenses related to the management of investment property totaled 34,225 euros in 2017 and 13,196 euros in 2016 (note 9).

In 2016, a new detailed planning has been established for the property under which the proportion of business property in respect of all the land has increased compared to the previous planning. New established detailed planning has increased the flexibility for the partial selling of the property as compared to the previous detailed planning, the plots are smaller and there is the flexibility of changing the size of the plots, as required.

In 2016, the Group signed a preliminary sales-purchase agreement for the sale of a 10.4-hectare industrial property. The final sale-purchase agreement was executed in March 2017 at the price of 8.14 EUR/m². The sold part of the land has been classified as assets held for sale as at 31.12.2016, look for more information in Note 16.

In the first quarter of 2017 a 10.4-hectare industrial property at the price of 850 000 euros was sold. According to the real right contract, Trigon Property Development AS was obliged to build a road to the sold land plot. On 08.08.2017 AS Trigon Property Development and the buyer agreed on

amending the sales agreement according to which the buyer is obliged to build the road and facilities according to the detail plan on its own expense. AS Trigon Property Development is no longer responsible for building the road and facilities and is not obliged to pay for the construction. Due to the change in contractual obligations the sale price of the property was amended and the sale price of Kase str 17 was 550 000 euros.

In 2017, the investment property was valued by the Management of the Company using the comparable transactions approach, which benchmarked the value of Niidu land area against the prices of transacted land plots along the Pärnu City. According to the statistics of Land Board the benchmark industrial and business land plot median prices ranged from 7.2 to 39.1 euros per square meter, depending on the size, location and basic site infrastructure. Management estimates the sale of small business land plots has influenced the median price of business property and therefore substantially conservative price per square meter has used for valuation of the property. Considering the change of the proportion of industrial and business land with reference to new established detailed planning and based on comparable transaction, the Management has estimated the sales price to be at 12.0 EUR/m². To evaluate the present value of the area as at 31.12.2017, the Management has estimated the sales period to be 4 years and has used a discount rate of 14.23%.

As at 31 December 2017, the evaluation resulted in a fair value of 1,791,474 euros.

In 2016, the investment property was valued by the Management of the Company using the comparable transactions approach, which benchmarked the value of Niidu land area against the prices of transacted land plots along the Pärnu City. According to the statistics of Land Board the benchmark industrial and business land plot median prices ranged from 7.2 to 39.1 euros per square meter, depending on the size, location and basic site infrastructure. Management estimates the sale of small business land plots has influenced the median price of business property and therefore substantially conservative price per square meter has used for valuation of the property. Considering the change of the proportion of industrial and business land with reference to new established detailed planning and based on comparable transaction, the Management has estimated the sales price to be at 12.90 EUR/m². To evaluate the present value of the area as at 31.12.2016, the Management has estimated the sales period to be 4 years and has used a discount rate of 14.23%. As at 31 December 2016, the evaluation resulted in a fair value of 1,471,532 euros.

According to IFRS 13, the valuation of fair value of real estate is considered level 3 investment. The main inputs are the sales price, the discount rate and the sales period in the discounted cash flow. Sensitivity of the main inputs to investment property fair value as of 31.12.2017:

Discount rate	Sales price, EUR / m ²						
	11.25	11.50	11.75	12.00	12.25	12.50	12.75
11.83%	1,780,000	1,820,000	1,860,000	1,910,000	1,950,000	1,990,000	2,030,000
12.63%	1,740,000	1,780,000	1,820,000	1,860,000	1,910,000	1,950,000	1,990,000
13.43%	1,710,000	1,750,000	1,790,000	1,830,000	1,860,000	1,900,000	1,940,000
14.23%	1,670,000	1,710,000	1,750,000	1,790,000	1,830,000	1,860,000	1,900,000
15.03%	1,640,000	1,670,000	1,710,000	1,750,000	1,790,000	1,830,000	1,860,000
15.83%	1,600,000	1,640,000	1,680,000	1,710,000	1,750,000	1,790,000	1,820,000
16.63%	1,570,000	1,610,000	1,640,000	1,680,000	1,710,000	1,750,000	1,790,000

Sales period	EUR
+1 year	1,680,000
-1 year	1,890,000

The property valuation is based on estimates, assumptions and historical experience adjusted with prevailing market conditions and other factors which management assesses to the best of its ability

on an on-going basis. Therefore, based on the definition and taking into account that evaluation is based on a number of presumptions, which may not realize in assessed way, the valuation can be subject to significant adverse effects. This could lead to a significant change in the carrying amount of investment property in future periods. The fair value of the investment property, which is assessed using the described model is essentially dependent on whether this project could be accomplished and appropriate financing found in compliance with the presumptions made and schedule used in evaluation model.

7 Payables and prepayments

EUR	31.12.2017	31.12.2016
Trade payables	5,279	11,297
Taxes payable	52,604	0
Other payables	3,230	3,000
TOTAL	61,113	14,297

8 Equity

	Number of shares (pcs)	Share capital (EUR)
Balance 31.12.2016	4,499,061	2,699,437
Balance 31.12.2017	4,499,061	2,299,020

The share capital of AS Trigon Property Development amounts to 2,299,020 euros as at 31 December 2017 (31.12.2016: 2,699,437 euros), which is divided into 4,499,061 ordinary shares with the book value of 0.511 euros. The minimum share capital stipulated in the articles of association is 675,000 euros and the maximum share capital is 2,700,000 euros. Each ordinary share grants one vote to its owner at the General Meeting of Shareholders and the right to receive dividends.

In 2017 the book value of shares of Trigon Property Development AS was reduced by 0.089 euros and corresponding payments to the shareholders were made in December 2017. The share capital of Trigon Property Development AS was reduced by a total of 400,417 euros.

As at 31 December 2017, the accumulated losses amounted to -994,920 euros. As at 31 December 2016, the accumulated losses amounted to -862,385 euros.

As at 31 December 2017, the Group had 367 shareholders (31 December 2016: 368 shareholders) of which the entities with more than a 5% holdings were:

- Trigon Wood OÜ with 2,335,525 (31.12.2016: 2,682,192) shares or 51.91% (2016: 59.62%)
- Skano Group AS with 346,667 (31.12.2016: 0) shares or 7.71% (2016:0%)

Members of the Management Board and Supervisory Board did not own directly any shares of Trigon Property Development AS as at 31 December 2017 and 31 December 2016. Supervisory Board members Joakim Johan Helenius and Torfinn Losvik have indirect ownership through parent company OÜ Trigon Wood.

9 Expenses related to investment property

EUR	2017	2016
Land tax	11,218	11,218
Other expenses	23,007	1,978
TOTAL (Note 6)	34,225	13,196

Other expenses in 2017 include expenses related to the land in the amount 17 000 euros (note 14).

10 Administrative and general expenses

EUR	2017	2016
Consulting (Note 14)	17,280	19,305
Security transactions and stock	10,219	8,290
Legal expenses	7,635	8,215
Auditing	5,720	7,160
Accounting service (Note 14)	3,720	5,370
Other	1,295	1,332
TOTAL	45,869	49,672

In 2017 and 2016, the average number of employees was 0.

11 Earnings per share

EUR	2017	2016
Basic earnings per share (basic EPS)	-0.02946	-0.01433
Diluted earnings per share	-0.02946	-0.01433
Book value of the share	0.40	0.52
Price to earnings ratio (P/E)	-18.67	-41.32
Closing price of the share of AS Trigon Property Development on Tallinn Stock Exchange	0.550	0.592

Basic earnings (loss) per share have been calculated on the basis of the net profit (loss) for the period and the number of shares.

Diluted earnings (loss) per share equal the basic earnings per share because the Group does not have any potential ordinary shares with the dilutive effect on the earnings per share.

12 Subsidiary

Until 30 June 2016, the Group had one 100% subsidiary, VN Niidu Kinnisvara OÜ, which was set up for the development of the land located in the area of Niidu Street in Pärnu. On 1 July 2016, Trigon Property Development AS was merged with VN Niidu Kinnisvara OÜ. On 21 October 2016, the merger of Trigon Property Development AS and VN Niidu Kinnisvara OÜ was entered into the Commercial Register.

13 Segment report

The Group operates in one business segment - property investments. Property investment division rents out land and develops property in Estonia.

14 Related party transactions

The following parties are considered to be related parties:

- Parent company Trigon Wood OÜ and owners of the parent company with significant influence;
- Members of the Management board, the Management Board and the Supervisory Board of AS Trigon Property Development and their close relatives;
- Entities under the control of the members of the Management Board and Supervisory Board.

The Group is listed in the secondary list of Nasdaq OMX Tallinn Stock Exchange. In total, OÜ Trigon Wood controls 51.91 % of votes represented by shares in AS Trigon Property Development. The biggest shareholders of OÜ Trigon Wood are OÜ Stetind (46.99%) and AS Trigon Capital (45.18%) by the time of compiling these financial statements.

In 2017 and 2016, no remuneration has been paid to the Management or Supervisory board. There are no potential liabilities or severance compensations to members of the Management Board or Supervisory Board.

In 2017, the Group bought services from the companies under the control of the Members of the Supervisory Board in the amount of 34,280 euros (2016: 19,305 euros) (note 9 and 10). In 2017, the Group bought services from the owners of the parent company in the amount of 3,720 euros (2016: 5,370 euros) (Note 10). As at 31 December 2017, the amount of 1,404 euros was unpaid to the related parties (2016: 3,696 euros).

15 Contingent liabilities

The tax authorities may at any time inspect the books and records within 5 years subsequent to the reported tax year, and may impose additional tax assessments and penalties to the Company. Tax audits were not conducted in 2017 and 2016. The Company's management is not aware of any circumstances, which may give rise to a potential material liability in this respect.

16 Assets held for sale

In 2016, 10.4 hectares of land in the value of 850 000 euros was classified from investment property to assets held for sale as the preliminary sales-purchase agreement was signed. The land was sold in March 2017 at the price of 850 000 euros. According to the real right contract, Trigon Property Development AS was obliged to build a road to the sold land plot. On 08.08.2017 AS Trigon Property Development and the buyer agreed on amending the sales agreement according to which the buyer is obliged to build the road and facilities according to the detail plan on its own expense. AS Trigon Property Development is no longer responsible for building the road and facilities and is not obliged to pay for the construction. Due to the change in contractual obligations the sale price of the property was amended and the sale price of Kase str 17 was 550 000 euros.

17 Supplementary disclosures on the parent company of the Group

In accordance with Estonian Accounting Act, information on the separate primary financial statements of the consolidating entity is to be disclosed in the notes to the consolidated financial statements. The separate financial statements have been prepared using the same accounting policies as for the consolidated financial statements, except for measurement of investment in subsidiaries, which in separate financial statements are reported at cost (less any impairment losses).

According to the Estonian Accounting law the amount which can be distributed to the shareholders is calculated as follows: adjusted unconsolidated equity less share capital, share premium and reserves.

Independent auditor's report

To the Shareholders of AS Trigon Property Development

(Translation of the Estonian original)*

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of AS Trigon Property Development (the Company) and its subsidiary (together the Group) as at 31 December 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Our opinion is consistent with our additional report to the Audit Committee.

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2017;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated cash flow statement for the year then ended;
- the consolidated statement of changes in equity for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements of the Auditors Activities Act of the Republic of Estonia. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the Auditors Activities Act of the Republic of Estonia.

During 2017, we have not provided any non-audit services to the Group.

Our audit approach

Overview

Materiality

Overall Group materiality is EUR 18.8 thousand, which represents 1% of total assets.

Audit scope

A full scope audit was performed by PwC Estonia for all Group entities.

Key audit matter

- Assessment of fair value of investment property

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the Management Board made subjective judgments; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgment, we determined certain quantitative thresholds for materiality, including the overall group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the consolidated financial statements as a whole.

Overall group materiality	EUR 18.8 thousand
How we determined it	1% of total assets
Rationale for the materiality benchmark applied	We considered total assets (that mainly consist of investment property measured at fair value) to be key performance indicator that determines the Group's value and is monitored by management and investors.

Key audit matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Assessment of fair value of investment property (refer to Note 2 ‘Summary of significant accounting policies’, Note 3.4 ‘Valuation of property measured at fair value’ and Note 6 ‘Investment Property’ for further details).</p> <p>Majority of the Group’s assets consists of investment property (land plot) located in Pärnu, Estonia.</p> <p>The fair value of the land plot of EUR 1.8 million as at 31 December 2017 has been assessed by the management, taking into account the following key inputs:</p> <ul style="list-style-type: none"> • changes in market prices during 2017 in Pärnu for similar land plots; • price per square meter for 2017 sales transaction covering approximately 30% of the total land plot; • expected sales period of remaining land plot. <p>Due to the magnitude and related estimation uncertainty, valuation of investment property is considered a key audit matter.</p>	<p>We assessed whether the Group’s accounting policies in relation to the measurement of investment property are in compliance with IFRS.</p> <p>We assessed the management’s expertise to perform property valuation and the effectiveness of their internal controls over information gathering procedures for making key assumptions and valuation calculations.</p> <p>We performed the following detailed tests related to the fair valuation of investment property:</p> <ul style="list-style-type: none"> • reconciled the ownership of land plot with the Land Register; • assessed the reasonableness of the key estimates and assessments made by the management, including comparing them with the inputs used in prior year’s valuation and with the changes in real estate market; • investigated the market prices in Pärnu for similar land plots; • audited 2017 land sale transaction agreement and assessed its impact on expected sales price and sales period of unsold land plot; and • read the disclosures in financial statements and sensitivity analysis performed by the management. <p>As a result of our work, we noted no material exceptions.</p>

How we tailored our audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

During 2016 the only subsidiary of the Group (VN Niidu OÜ) was merged with the Company (refer to Note 12). Both the Company and its subsidiary (until the merger) have been fully audited by us.

Other information

The Management Board is responsible for the other information contained in the Group's Annual report 2017 in addition to the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management Board and those charged with governance for the consolidated financial statements

The Management Board is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as the Management Board determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Management Board is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management Board either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Board.
- Conclude on the appropriateness of the Management Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Appointment and period of our audit engagement

We were first appointed as auditors of the Company for the financial year ended 31 December 2006. Our appointment has been renewed by tenders and shareholder resolutions in the intermediate years, representing the total period of our uninterrupted engagement appointment for the Company of 12 years.
