

Besqab starts production of a new nursing home in Nynäshamn

Besqab AB (publ) ("Besqab") is commencing construction of a new care home in Nynäshamn. The facility comprises 80 residential units, and the care provider will be Ersta diakoni.

The new care home for elderly, featuring 80 apartments, is situated in central Nynäshamn, beautifully located in the Gröndal area, where residents will be able to enjoy sea views.

A lease agreement has already been signed with Ersta diakoni, and the facility is scheduled to open in late 2028.

Magnus Andersson, CEO of Besqab:

"As a developer, it's important to be able to build pleasant, well-functioning residences that meet the growing demand from the elderly population. Besqab has extensive experience in developing and managing high-quality nursing homes. Thanks to an efficient planning permit process and excellent cooperation with Nynäshamn Municipality, lead times were significantly reduced, enabling a more rapid construction start."
