

W5 Solutions receives order from FMV for simulator communication helmets

W5 Solutions' business area Power has received an order of approximately SEK 10 million from the Swedish Defence Materiel Administration (FMV) for simulator communication helmets, with deliveries scheduled for Q2 2026.

The helmets will be integrated into existing training environments to enhance realism, coordination, and communication capabilities during simulator-based exercises for the Swedish Armed Forces.

"This order further strengthens our position as a trusted technology partner to FMV and the Swedish Armed Forces," says Tobias Johansson Head of the Power Business Area at W5 Solutions. "Our simulator communication helmets improve training efficiency and realism while maintaining the highest standards of safety and reliability."

Simulator communication helmets are a new product within W5 Solutions' product area Simulation and add to the company's portfolio of defence training and simulation technologies, developed to enhance training efficiency, realism, and operational capability.

About W5 Solutions

W5 Solutions' vision is to become the leading global provider of sustainable defence technology. The company develops and delivers cutting-edge solutions that strengthen both its own forces and those of its allies. Their solutions in Integration, Training and Power are designed with a focus on sustainability and innovation, making them a reliable partner for defence and security agencies worldwide.

Founded in 2018, with a heritage dating back to 1940, W5 Solutions is headquartered in Stockholm.
