The AGM resolved, in accordance with the proposal of the Board of Directors, to authorise the Board of Directors to acquire and sell shares in the Company, on one or more occasions, such authorisation to remain valid until the next AGM. The purpose of such repurchases is to allow for adjustments of the Group's capital structure and to enable the Company to make future acquisitions of companies or businesses with payment in the Company's own shares. By holding shares in treasury, the Company is also assuring its obligations under the share based incentive programs resolved at the AGM 2023, AGM 2024 and AGM 2025 and the call option Scheme resolved at today's AGM.

In accordance with the proposal of the Board of Directors the AGM resolved to authorize the Board of Directors to decide on a new issue of up to 5 percent of the number of B shares as means of payment during acquisitions. The purpose of the new share issue resolution is to enable more company acquisitions.

The resolution for the Board of Directors is valid until the next Annual General Meeting to decide on the issue of new shares, on one or more occasions, in deviation from shareholders' preferential rights, against payment in cash, by set-off or with non-cash consideration. However, such issues may not cause the Company's registered share capital or the number of shares in the Company to increase by more than a total of 5 percent, based on the Company's registered share capital or the number of shares prior to exercise of the authorization. Set-off shall only be possible against claims in connection with payment for shares in companies acquired by the Company. Issues shall take place on market-related terms and conditions.
