

Nordisk Bergteknik recruits Fredrik Karlsson as new CFO

Nordisk Bergteknik has appointed Fredrik Karlsson as its new CFO, with effect from 1 October. Fredrik joins from a position as Finance Director at T-Byggen Sverige, a Western Swedish construction company with headquarter in Alingsås.

"We are very pleased to be able to welcome Fredrik Karlsson as Nordisk Bergteknik's new CFO. Fredrik will bring the important combination of broad financial expertise with extensive operational experience from several different roles, not least in project management within construction and project-based businesses. Together with solid business acumen and strong leadership qualities, he will be a significant asset to Nordisk Bergteknik in the years ahead", says Andreas Christoffersson, CEO of Nordisk Bergteknik AB.

Fredrik Karlsson, born in 1980, brings experience from both entrepreneurial environments and larger organisations, where he has been part of building finance functions, implementing systems and establishing structures for reporting and governance. He has among other things spent one and a half decades in various roles at Serneke, and prior to that worked within audit.

"I truly look forward to taking on the role as Nordisk Bergteknik's new CFO. Above all, it is the combination of a decentralised and entrepreneurial culture within a listed group, and the opportunity to work close to the business in a smaller, tight-knit context, that attracts me", says Fredrik Karlsson, incoming CFO of Nordisk Bergteknik.

Current CFO Johan Lundqvist, who has been active within Nordisk Bergteknik since its founding in 2016, will leave his position at the end of the third quarter to support the Group in an advisory capacity, with particular focus on the Norwegian operations.

"Johan Lundqvist has a deep knowledge of our entire business and will contribute with valuable continuity, as well as supporting the Group's Norwegian operations on financial and operational matters during a transition period", says Andreas Christoffersson, CEO of Nordisk Bergteknik AB.
